## Brief History San Martin Pinario Monastery

**The monastery of San Martin Pinario** is a Benedictine monastery in the city of Santiago de Compostela. It is the second largest monastery in Spain after San Lorenzo de El Escorial.

The monastery was built around the year 899 and it grew throughout the Middle Ages so that by the end of the fifteenth century it became the richest and most powerful of Galicia. Little remains of the original medieval buildings, as the monastery has been largely rebuilt since the sixteenth century. The monastery was closed in the nineteenth century and the buildings currently house a seminary, the Seminario Mayor of the Archidiócesis of Santiago, and the Escuela Universitaria de Trabajo Social from the Universidad de Santiago.

Currently, this building has enabled part as university residence hall, hosting servicing, and as a museum of religious art, distinguished as one of the best in Galicia. You can visit also the temple itself, the sacristy, the former printing, the pharmacy, the chapel of the relics or the Renaissance choir of the Cathedral of Santiago de Compostela, and various collections of gold, ivory or liturgical vestments.

The monastery counts with lounges with various capacities for acts of 15 to 200 people, and ample spaces with diverse evocative atmospheres that make of the Hospedería San Martín Pinario the ideal place to organize seminars, congresses, conferences, business meetings and spiritual retreats.

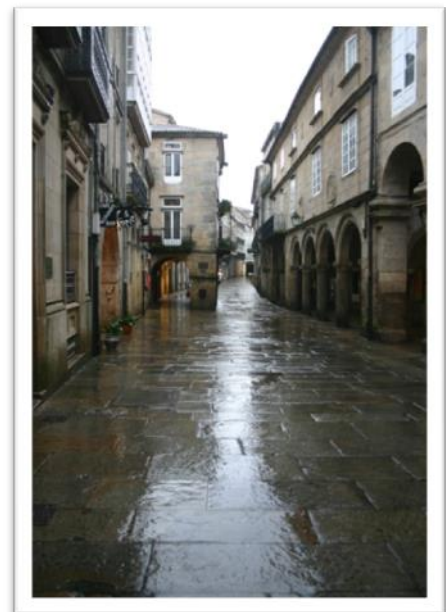

### 3. Brief presentation of Santiago de Compostela

**Santiago de Compostela**, capital of the Autonomous Community of Galicia, is a city that has UNESCO's World Heritage status thanks to its architectural beauty, its extraordinary conservation and for being the final destination of a thousand-year-old pilgrim route: the Way of St. James, which, since the 9<sup>th</sup> century, has transformed this finis terrae into a meeting place of Western faith and thinking.

A Romanesque cathedral that throughout the years acquired the sobriety of the Renaissance and the majesty of the Baroque emerged there. These traits ended up by drawing the monumental image of the city, made of the granite of its monasteries, pilgrim hospitals, several churches, stately houses and squares in which time invites us to stop.

The city stores its special treasures for the visitors, which are exhibited in 16 museums, and the surprisingly wealth of its contemporary architecture, signed by Eisenman, Hejduk or Siza, around which the most important endowment of parks and gardens of Galicia is extended. In this scene, cultural manifestations spring up by a public and private initiative led by the five-hundred-year old University of Santiago, whose lecture rooms add 23 thousand students to a stable population of around 100 thousand inhabitants. In addition, the city welcomes millions of visitors throughout the year.

Santiago gives its name to > 600 locations in the world – Santiago de Chile, Santiago de Cuba, Santiago de Phillipines, California, Virginia, Pennsylvania, Brazil, etc.

To finish off the visit to Santiago, we will climb to the amazing Cathedral's terraced roofs, which can be entirely explored. At almost 300 meters high, 30 meters above Obradoiro Square and with a 360 degree view. The sight slides over the roofs and gets lost in the surrounding hills in an unforgettable view.

## 7.2. THE WAY OF ST. JAMES FROM O PEDROUZO. 19.4km (4 hours and a half, approx)

**19<sup>th</sup> September 2017**

This stage takes us from **O Pedrouzo**, located at the O Pino city council, right to the **Obradoiro Square**. This tour combines the familiar Galician forests, the most emblematic streets of Santiago and the most representative history of a millennial path that brought thousands of pilgrims to this city. A mixture of emotions and feelings that will not leave you indifferent, which increases its intensity with each step that brings us closer to the city of Santiago de Compostela.

## 7.3.- VISIT TO A CORUÑA

**Duration of the visit: 5 hours**

Excursion that visits one of the most aristocratic cities of Galicia, origin of the famous balconies that gave it the name of Crystal City. Over the promenade (one of the longest in Spain) we arrive to the **Tower of Hercules** (most ancient lighthouse in the world); we continue our visit through the beaches of the city (**Orzán** and **Riazor**) and we go to **San Pedro's Park** (from where we will enjoy an incredible panoramic view of the city).

We travel along the coast in order to cross the mouth of the Ulla River (the one that forms the Ría de Arousa). Later, we visit the replica of a Viking ship, which reminds us of the terrible razzia executed by the Northern people here. We continue along **Carril** so we can see Galicia's most famous clam breeding areas, if the tide allows it.

Visit to **Cambados**, capital of the Albariño wine, and one of the best preserved villages. We continue towards **O Grove** (famous for its mussel rafts) and we make a quick stop at the **A Toxa Island** (where the famous La Toja black soap with medicinal properties for the skin was produced).
